

RAY OF HOPE

Newsletter : October 2022

A festival is not only about culture but also about celebrating human values. Deepavali is a major festival in India, which KIRAN celebrates with enthusiasm and fervor. For a week, students at KIRAN school prepare for the festival. Children decorated KIRAN's campus with Rangolis and Deepaks (lamps) on the day of celebration. The children performed cultural performances, including dance, song, and play.

The entire KIRAN Village vibrated with joy and enthusiasm when some staff and children together enacted some scenes of the Ramayana epic

Parents of four children with cerebral palsy (CP) were trained in care giving. Parents became aware of how to take proper care of CP child at home.

The month of October saw 48 children with different disabilities being assessed in medical camps organized in far-off villages of Varanasi with the help of grassroot NGO's.

Regular visit of Psychologist to KIRAN school took place in the month of Oct. Psychologist administered different tests, took individual session of children, case discussions and goal planning with educators.

Donate Now

KIRAN provides appliances such as Calipers, Prosthesis, Splint and Customize Wheelchair to children with disabilities from marginalized sections.

Every year on an average KIRAN helps about 1000 children, in 2020-21 KIRAN delivered 529 appliances and 62 aids.

The average cost to provide calipers to one child is INR 5000. Donate now to help KIRAN provide Calipers to children with disabilities from marginalized communities.

It is an amazing feeling for parents to see their child with locomotor disability walk, your donations will help a child with disability walk.
